vintage photos stamps elephants (not real!) stickers rocks

Start a Collection

Be sure that this is something you want to encourage in your children. You'll need appropriate storage and the knowledge that some collections can grow into obsessions. However, collecting can also be a great way of meeting new people, a lively topic of conversation, and a easy way of sourcing gifts for the collector in your family! Collectibles can be swapped with other collectors, can bring out the competitive streak in your child, and can make interesting and unique displays in your home. They can also help to develop children's organisational skills, and can be worth money in the future.
