

Rock Painting

You'll need a selection of small rocks, some paintbrushes and some acrylic or house paints. Analyse the shapes of the rocks. Sometimes rocks already look like things or, with just the simple addition of eyes, can easily be turned into creatures or people. Decorate the rocks any way you wish. You could make a collection of crazy characters to be a **rock band**, or you could decorate with simple patterns to become **rock art** (great for paper weights and gifts).

If you wish to extend this project, glue a collection of rocks together to make **rock caterpillars**, or **rock folk**. You can even stick on bits of wool or fur for hair or, instead of painting in the eyes, glue on some plastic ones from your local sewing store. **Rock on!**

That's the story
